

**MSP-24
MSP-230**

Fault signalization module MSP-24 and MSP 230

- It is designed for sound and light signaling of overvoltage protection fault condition
- It is supplied in two versions:
MSP-24 for 24 V AC/DC
MSP-230 for 48 ÷ 230 V AC
- Modules can be used as a signaling units, also in other applications, e.g. parts of machinery equipment etc.

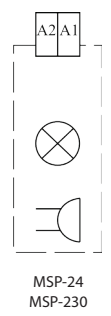

DIMENSIONS

WIRING DIAGRAM

TECHNICAL PARAMETERS AND PRODUCT SPECIFICATION

TYPE	MSP-24	MSP-230
Power supply Voltage	U_N 24 V AC/DC	48 ÷ 230 V AC
Power supply current	I_N 20 mA	20 mA
Frequency	f 4,1 kHz /65 dB	4,1 kHz /65 dB
Order number	94.121	94.122
